Japanese are Credited With Capture of Two Russian Warships off Chemulpo-Third Fight Going on Off Port Arthur.

THE FOO, Feb. 10.—[Exclusive Despatch.] Russian and Japanese fleets now fighting third battle four miles off Port Arthur. One Japanese cruiser reported badly damaged.

> BATTLE OF CHEMULPO. [BY THE ASSOCIATED PRESS-P.M.]

TOKIO, Feb. 9.-It is reported here that the Japanese fleet engaged and defeated two Russian warships, whose names have not yet been learned, at Chemulpo today. It is said the engagement began at 11 a.m. and continued until 3 p.m. The smaller Russian vessel is reported to have been sunk, and the larger one was fired and hopelessly destroyed. A part of the crews are reported to have escaped to the shore and to have been captured. The Japanese ships are reported to be slightly damaged. Official confirmation of the battle is unobtainable.

It was reported yesterday that the Russian cruiser Korietz and the Variag were lying at Chemulpo yesterday, and it is possible that they were the vessels reported to have been engaged.

OFFICIAL RUSSIAN REPORT.

[BY THE ASSOCIATED PRESS-P.M.] ST. PETERSBURG, Feb. 10, 1 a.m.-[By Atlantic Cable.] The following official bulletin has ust been issued in the form of a telegram from Viceroy Alexieff's chief of staff, dated Februrary 9

"By order of the Viceroy, I beg to report that this day, at about 11 o'clock in the morning, a Jar anese squadron, consisting of about fifteen battleships and cruisers, approached Port Arthur and opened fire. The enemy received a cannonade from the shore batteries and the guns from our squadron, which also participated in the engagement.

"At midday, the Japanese squadron ceased its fire and left, proceeding south."

"Our losses in the fleet were two officers wounded, nine men killed and forty-one men wounded. The battleship Poltava and the cruiser Novik each had a hole knocked in her side below the water line. The forts were slightly damaged. [Signed,] MAJ.-GEN. FLUG."

MAIL STEAMER TAKEN.

LONDON, Feb. 9, 7:50 p.m.—A dispatch to Reuter's TelegramCompany from Shanghai says it is creditably reported that the Russian mail steamer Mongolia, which left Shanghai Sunday, has been captured by the Japanese off Shan Tung Peninsula.

JAPANESE BATTALIONS NEAR SEOUL.

ROME, Feb. 9.—Official advices received here from Tokio say that rour battanens of Japan infantry have landed in Korea, near Seoul.

FRENCH HOIST TRICOLOR.

LONDON, Feb. 9.—A dispatch to Reuter's Telegram Agency from Tien-Tsin says that a French transport, with a battalion of troops from Tonquin, is hourly expected at Shan Hai Kwang (in the Gulf of Liao Tung) to garrison the forts which are being evacuated by the Russians. It is reported that the tricolor of France was hoisted there this morning, and that the British officer in charge at Shan Hai Kwang protested against the French occupying it. At present there is only a single sentry guarding the flag. The British commander here, Brig.-Gen. Ventry, and his chief of staff proceeded to Shan Hai Kwang this morning.

RUSSIAN WARSHIPS REPORTED CAPTURED.

NEW YORK, Feb. 9.-[Exclusive Dispatch.] The Journal's Tokio special says Japan is almost wild with joy over the news that her sailors captured two Russian cruisers, the Variag and Korietz. off Chemulpo today. The report of this success, coming immediately after the receipt of the news of the splendid victory won at Port Arthur on the first exchange of shots, has fired the nation with confidence as to the outcome of the war.

CONCENTRATING NAVAL FORCES.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, Feb. 9.—[Exclusive Dispatch.] The Journal's Vienna cable says the Russian embassy states that all Russian warships have been ordered to return to their home stations immediately. The extreme gravity of the war situation was the cause of the issuance of the order.

> STORY OF FIRST ENCOUNTER. [BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 10.-The Herald publishes this morning the following from its correspondent:

CHEE Foo, Tuesday, 1:30 p. m. (Eastern time.) I was lying, Monday night, quarantined in the Indo-China steamer Columbia between the entrance to Port Arthur and the Russian fleet, and very close to the latter. Only two of the Russian warships were using searchlights. In a leisurely fashion, only three torpedo boats were patrolling the outskirts of the fleet. All the other torpedo boats were inside the basin. Everything was tranquil, and a Russian official told us he expected the Japanese fleet in three or four days. The lighthouse was already lighted, and guiding lights were also burning.

About 8 o'clock, the Russian sailors chanted their evening prayers. The hymn rolled out impressively along the water. The weather was perfect. It was not cold, and the sky was clear. There was a light southerly breeze and a hazy horizon. The deep silence settled down. I was go ing to bed about half-past 11, when I heard three distinct, but muffled explosions, one after another. Apparently they came from under the water, for the Columbia vibrated vio

Instantly, firing with 12-pounders and 3-pounders be gan. Searchlights were placed, but without much method. I watched the operations, thinking they were only maneu-

vers, till midnight, when the firing had almost ceased; entirely so at 3 in the morning.

TORPEDOED WARSHIPS.

About 1 o'clock, two battleships, probably the Retaivan and the Czarevitch, and one large cruiser passed us, coming toward the harbor entrance. The battleship then lay across the narrows at the entrance, where both are now aground and helpless. They are very close together, and are not blocking the entrance, except for ships of heavy draught. The Retzivan had been torpedoed forward, the Czarevitch aft. The cruiser listed to port is aground outside the entrance of the harbor. She was also torpedoed.

At twenty minutes to 3, some Russian naval officer came to the Columbia in a state of great excitement, saying the Viceroy had ordered us not to attempt to leave, their object apparently being to prevent us from giving information to the Japanese concerning the extent of the damage. Up to this time, we thought the operations were only maneuvers, or a scare, but now we began to suspect some thing serious, especially when, at daybreak, we saw the strange, pathetic appearance of the two torpedoed battleships. We suspected a collision, but soon learned that these battleships and the cruiser were certainly torpedoed. It seemed strange, for though the flashlights were whirling wildly and the lighthouse light was now extinct, no firing

At this conference also of the fire was the escape of the big government buildings. The flames government buildings. The flames wrought destruction on all sides of this group of structures, except the north. These buildings are the City Hall, the United States Courthouse, ion with the Legislature.

In conjunction with the Legislature.

The Stock Exchange directors met and decided to build as soon as possible. The same story can be told of practically every commercial house, while on every hand is evidence of private effort toward rehabilitation. Old buildings, long used: private residences near the business section, in fact, every available structure bears the announcement that within is the temporary office of a firm. Labor is in demand, and the newspapers already contain display advertisements for men to begin the work of clearing the ruins.

A great cloud was lifted this afternoon when it was discovered that practically all of the vaults and strong rooms and safes of the financial concarns, whose buildings were destroyed, were unhurt. A tremendous loss in securities had been anticipated, but vault after vault yielded up its treasures unharmed. From one trust this group of structures, except the anorth. Another surprise was the discovery were directly in the path of

the flames, were practically unharmed. These were the Mercantile Trust Company and Brown Brothers', Bank. The escape of these buildings is their lack of height. They do not exceed four stories, and as they were surrounded by lofty structures, the flames swept over them.

As yet no figures on loss and insurance that can be regarded as official can be obtained. A careful estimate of expert builders and business men places the loss at \$125,000,000, and the insurance from \$80,000,000, and the insurance from \$80,000,000,000. It is probable these estimates will stand with slight changes when the final figures are written.

H. H. Hurst of the firm says there was no gasoline in the building, and that the fire did not have its origin in an explosion of this liquid in the Hurst building. This statement was subsequently corroborated by a signed statement issued by S. W. Hopper & Sons, insurance agents and brokers, who said that after careful inspections by deputies of their firm and of the Fire Underwriters' Association, they were satisfied there was no gasoline in the building. Hurst said that he and Charles George, a trusted employs, were the last persons to leave the building, at 5:30 p.m., Saturday, and that all the electric lights were turned off by a switch. It is not denied that the fire originated in the Hurst building, but how it started is yet to be learned.

Multitudes of people, residents as well as out-of-town folk, who are flocking to the city on every train, spent the early hours of the night in the section just back of the fire lines, gazing at the wrecked buildings. REGULAR SESSION. WASHINGTON, Feb. 9 .- SENATE. The Senate today entered upon the consideration of the Diplomatic and Consular Appropriation Bill. All the

of 1846. Mr. Carmack also stated his views in opposition to the treaty, saying he had been impelled to do so because of the fact that he had received a number of petitions asking him to support it.

Mr. Carmack announced his great desire that there should be a canal, but said he did not believe the Panama Canal was involved in the treaty. He was satisfied that if the President could not get a canal via the Panama route he would follow the Spooner law and accept the Nicaragua route, for, he said, "much as the President likes to have his own way, he likes better to be President."

Mn. Carmack also referred to the abolition of a postoffice in Mississippi, and declared that the President had held up as a model the Governor of a Northern State who had given refuge in his State to a murderer whose crime had been committed in a Southern State.

Mr. Carmack also charged that the President had also spoken with con-tempt of the Congress, and said that he should be taught "that he is not the

Mr. Carmack then spoke of Minister Bunau-Varilla as a "bare intriguer and a characteriess adventurer."

In conclusion he expressed the conviction that the treaty would be ratified, and said that "no doubt the President will rejoice at his triumph over justice and law."

Mr. Fulton of Oregon spoke for the treaty. He referred to the proposed canal as the greatest enterprise that the world has ever been engaged in. He had, he said, found no difficulty in indorsing the course of the administration in Panama, but contended that Congress had no power to enter into an inquiry into that course, because the President was acting "within his executive powers."

Mr. Fulton spoke of Colombia as a country for which it was impossible to do anything because of the character of its people, of whom he said that "their diabolicalism is but the natural instinct of a race of buccaneers." He contended that President Roosevelt was the choice of the people, and predicted his election by such a majority as had never been known before.

The Senate went into executive session, and at 4:40 p.m. adjourned.

NEXT MORNING. NEXT MORNING.

The sun rose very red, disclosing the presence on the horizon of three two-funnel cruisers, above whose masts we afterward distinguished the flag of the Rising Sun of Japan. They came boldly within long-distance range, and remained watching for two hours after daybreak. A strange apathy seemed to possess the Russians. The crews of white-faced gaping men crowded the forward decks of the damaged vessels. I saw through the glasses the cook of the Retvizan caimly throwing out slops and men the glasses the cook of the Retvizan calmly throwing out slops and men in the other vessels carefully washing the anchor chain while weighing the anchor. For a long time after the anchor was weighed, no vessels showed a disposition to chase the Japanese, or to fire a single shot.

THE PURSUIT. Finally the Japanese left. This was at twenty minutes after 8. They were pursued by the Russian fleet, which proceeded toward Dainy, inshore of the Japanese. At a quarter after y, the Russians returned to their anthorage, no uring having apparently returned. Then again came silence. occured. it was almost 11 o'clock this morning when sixteen Japanese ships, including five battleships, appeared luding five battleships, appeared long the horizon. They were in fine refer. At a quarter after 11, say, ame the first flash from a Japanese easel. This landed a 12-inch shell ear the torpedo boats and disabled battleship. The aim was splendid wing to the confusion of the quartities officials, or perhaps because the Russians thought the Japanese antine officials, or perhaps because the Russians thought the Japanese would dislike to fire near the British flag, the Columbia had been left lying close to the Russian fleet, and in the lipe of fire, so that the Japanese shells aimed at the battleships fell thickly around her. Several, bursting near her stern, strewed her deck with splinters and water.

COULNESS OF ANDERSON

COOLNESS OF ANDERSON. Capt Anderson then got under way, although ordered by the Russians not to leave, and despite the protests of the Russian guards aboard, who were eventually conveyed to Chefoo. On one occasion, while shells were bursting around about us, the captain called a boy to get me some cigarettes. Officers Wright and Nicholson and Engineer Smith were cooliness personified. The vessel was brought out of her excessively danger ones position by running near the shore and then making full speed for Chefoo. The Russian guards were praying fervently, and the Chinese crey was frightened, but worked well. We feered the Russian batteries would sink us for disobeying orders, or send a torpedo boat in pursuit. The captain had repeatedly signaled for permission to proceed, but his signals were not answered.

The bombardment of the fort lasted till a quarter to 12, the Japanese shooting with good aim. Two shells burst on the summit of one fort and along the beach. All of them were heavy shelis. Owing to the leight of the range, all the shells burst on contact with the water or land. Some threw out yellow smoke, but generally it was dense black smoke, temporarily concealing the ships. The rate of fire on both sides was slow, and many Russian shells fell short.

The fleets were about three miles apart. Apparently no ship on either side was seriously disabled. NOVIK FIGHTS PLUCKILY.

NOVIK FIGHTS PLUCKILY.

The Russian cruiser Narik fought pluckily, keeping by far the closest to the Japanese. All the heavy fire was concentrated on her and it compelled her to retire on the battleships. The other Russian cruisers fought at first outside the line of battleships.

The Russians seemed to fight with little formation, probably owing to the cramped space, being never more than a mile and a half from shore. They remained all the time under the guns of the forts, which red over them, but not very frequently.

Whenever the heaviest shore batteries fired over our heads, the air vibrated strongly and there was a

vibrated strongly and there was a great crackling sound around us. Be-fore the action, we saw the Russian battleships throwing beds and other lumber through the gun ports, and Chinese sampans were busily engaged in picking up these articles, including ping-pong tables, until the shells be gan to fall.

UNCLE SAM SAVING CHINA'S INTEGRITY.

BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 9.—[Exclusive Dispatch.]
The President and his Cabinet today took the first steps to prevent American commerce in the Far East from being destroyed in the Russo-Japanese war, and in taking this step they attempted to enlist a good part of the entire civilized world outside of the two combatants, who, it is believed here, are really fighting for Chinese territory. The diplomats, of course, were greatly surprised when Secretary Hay announced, after today's Cabinet meeting, that he had addressed a notice to the European powers asking them to join the United States in preserving the integrity of the Chinese Empire.

It was acknowledged that this step at this time is an extremely important one. No competent authority attempted to predict what responses Secretary Hay would be apt to get, but the consensus of opinion seemed to be that the President and Mr. Hay did not take the step without first having had some hint of how it would be received by some, at least, of the great European powers having interests in China.

It was stated today that the fear that the United States would become involved in the conflict in the Far East was absolutely groundless. While this government intends to use every diplomatic move that can be used to prevent the dismemberment of China and to protect American trade advantages in the Far East, the President will avoid, if it is possible to do so, any move that might possibly involve this country in a serious way.

The news that Japan had duplicated her action at the opening of the Chiese war by torpedo attack on the Russian ships at Port Arthur created intense excitement. Details of the attack are anxiously awaited. Extra editions of the morning papers, printed tack are anxiously awaited. Extra editions of the morning papers, printed carly in the forenoon, after the appearance of the Official Messenger, conveyed the intelligence to the population of the capital and dispelled any lingering hopes that war could be averted. The Czar and his Ministers, who had been informed immediately of the receipt of Viceroy Alexieff's telegram, accepted the gage and prepared to face the reality of war. The Czar's manifesto declaring a state of war to exist is expected to be issued tomorrow at the latest. Feverish activity reigned at all the ministries, tivity reigned at all the ministric and war preparations were pushed in all directions. GEORGE F. SAVAGE. Duffy's Pure Malt Whiskey contains no fusel oil, and is the only whiskey recognized by the Government as a medicine. This is a guarantee.

CAUTION—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations and Malt Whiskey substitutes, which are put on the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get it. It is the only absolutely pure Malt Whiskey which contains medicinal, health-giving qualities. Duffy's Pure Malt Whiskey is sold in sealed bottles only; never in flask or bulk. Look for the trade mark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken. CAVE THE PUBLIC LAND. The subject of the preservation of the public lands for actual home makers is of such vast and overing importance that no excuse is sary from The Times to its readers for frequently reverting to the tor Gibson of the Committee on Public Lands submitted a report on the repeal of the Timber and Stone Act, the Desert Land Act and the comport, that if the then rate of increase Act. Mr. Gibson showed that all the valuable timber lands of the Union three years, if the practice of acquir have reported against this act, and have urgently recommended its re-peal. Among the Presidents that have withstanding all this, notwithstanding the evidently urgent necessity of takthe public lands, the speculators who have been making millions of dollars

As to the Desert Land Act, its re-

peal is clearly demanded in the interest of the actual settlers on the public land. The committee, in its

report, says:

"The Desert Land Act was not created for the benefit of farmers wishing to build homes in the far West, but was placed upon the statute books, in the first instance, to enable a few wealthy men to acquire vast bodies of land in California. But a small per cent. of the dry lands of our arid and semi-arid domain taken under the Desert Land Act have been reclaimed in accordance with law. Too often a partial and temporary reclamation has been adopted, which is immediately abandoned after final proof has been made. Men and women have in numerous instances been employed to take up land in continuous bodies from 5000 acres even to 300,000 acres and to turn them over to land proprietors to be used chiefly for grazing purposes. For more than twenty years this act has been looked upon with disfavor by our Presidents and by many men at the head of the Interior Department."

Where will this rapidly increasing population find homes upon the land if we permit the public domain to pass into the possession of men seeking to own and control immense landed estates? There should be but one act upon our statute books under which public iands can be acquired, and that one act should be a genuine homestead act which imposes a residence of five years and continuous cultivation of the soil—an act having no commutation provision attached to it."

What was said a year ago, in this respect, is still more pertinent today, for speculators, foreseeing that public opinion will soon force Congress to take action against them, are leaving no stone unturned to steal as much as possible of the public land before that day comes. As The Times has said, if Congress does not act promptly in this question, it will be too late. It will be like locking the stable door building restrictions after a disasple will have disappeared into the hands of speculators, and members of Congress who fall to stand up for the people will have incurred a most

A BULWARK AGAINST RUSSIA.
In a recent issue of the Washington Post appeared an article by Robert Stein upon a subject which has been given an especial and added interest by reason of the precipitation of hostilities between Japan and Russia. The article was entitled "The Modern Esau." Mr. Stein likens the Germany of today to the Esau of old, who sold his birthright for a mess of pottage. In the case of Germany, the ness of pottage consists in the re-Lorraine as German territory, and the birthright consists of German colonial expansion in the Far East and in The writer's arguments are in-

genious, whether one agrees with his conclusions or not. "In 1898," he says, "Jules Lemaitre, one of the leaders of French opinion, informed the Germans that if they would restore Metz and French-speaking Lorraine sized French colony in exchange, and enable them to get many more colkey to the whole line of argument have France and Germany "get tospeaking Lorraine to France being a ment-and with England form an al-

Mr. Stein points out the inestimable advantages which he thinks would fol-

low the realization of the programme which he has mapped out, as follows: cultivation for the term of five years title is granted to them from the government.

The committee predicted, in its report, that if the then rate of increase in the filing on government land should be maintained, between 25,000,000 and 30,000,000 acres would be concentrated on their lamentable interests.

of the Needles, is receiving considerable attention from prospectors, and a number of Los Angeles people are becoming interested. Reports are being received in the city of fine assays secured from the spar, and though the quarts ledges lying underneath have not been exploited, yet the indications are so promising that a number of people are now soing in from the Needles and the Searchlight district.

The new district—if new it may be called—has already been christened "The New Cripple Creek." by the miners of that region. Probably the christening was somewhat premature for no ore running into the fancy figures has yet been discovered, but indications are plentiful that such ores really exist.

The district embraces what is known as the Rive range of mountains in morthwestern Arisons, containing a mineral zone sixty-five miles long and about twenty miles wide. It lies between the Searchlight district on the north, and the Sear Francisco district on the south.

John W. Foster, who has prospected in the desert country for several years, came in from the new district last night and reported that a great amount of work is now being done. Two prospectors who have a 60-foot tunnel into Sledge Mountain, are said to have refused \$40,000 for their claim. They have obtained assays running from \$2.40 to \$800 in gold per ton, but se far the vein is not in place, and the extent of the find has not been proved.

Calaverite has not been found in this district, though it prevails to some extent in the Scarchlight. However, several specimens of slyvanite have been found, and picked pieces of rock show splatches of the dull leaden-hued mineral, that return high assays.

FOR SALE-BY A. RAYMER REALTY & MINES CO.

A good lot for income, Surils, close in on Flower near Third. Don't make any mistake about this locality. The poles are now in place for the Glendale car line, to go up Flower to Third; also the loop line over the hills. This will bring the trade to Third and Flower and through the tunnel. This lot is worth 35000 now, and before 3 months will increase \$50 per foot on account of the improvement: to be made on this street. Secus at once and also try to buy a lot in this block for less than 350 per foot if you can block for less than 350 per foot if you can. Por one week this will be \$2500.

Come and talk to us about this lot.

sumptive. The entire Imperial family followed in order of precedence. Approaching a group of naval and military officers, His Majesty gravely greeted them with the customary Russian phrase, "I wish you good eaith, gentlemen."

The officers responded with a loud acclaim, shouting vigorous hurrahs.

The seene became one of wild enthusiasm, amid which the Imperial procession moved forward, entered the chapel, advanced to the altar and stood with bowed heads, while the choir and clergy intoned an impressive intercessory service of the Greek church. An intensely religious spirit pervaded the entire assemblage, which crowded the little palace chapel to its utmost capacity. During the recital of the Litany, many knelt, and even bowed their heads to the chapel floor.

At the conclusion of the service, the Imperial party slowly retired. As they reentered the palace, another scene was enacted. The Czar made an address. Darkness had fallen before the service was finished.

QUARRELING OVER COMMAND. Serious differences have arisen in high quarters over the command of high quarters over the command of the Russian land forces in the Far East. One faction favors placing both land and sea forces under Viceroy Alexicif, while the generals and other high officers of the army believe that the prestige of Gen. Kuropatkin, the War Minister, is essential to achiev-ing success with the land forces, and they therefore urge a division of au-thority. In any event, it is understood Viceroy Alexicif, as the Czar's repre-sentative in the Far East, will have general direction of operations.

ron can coal and get under way within two days.

Admiral Evans is expected to keep the battleship squadron in Philippine waters throughout the period of hostilities between Russia and Japan. This decision was reached at the Cabinet meeting today after long consideration. It has been definitely settled that the cruiser squadron will not go to Port Arthur.

Admiral Evans is not instructed regarding his own movements, but it is believed in naval circles that he will transfer his flag to the Albany and proceed northward with the cruiser squadron.

NOTE TO THE POWERS. NOTE TO THE POWERS.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Feb. 9.—Secretary

Hay has addressed an identical note

ascertain if they are willing to join
in a notice to Russia and Japan that,
during hostilities and thereafter, the
neutrality and integrity of China must

during hostilities and thereafter, the neutrality and integrity of China must be recognized.

Details of the note are not obtainable in advance of the receipt of replies. It is known, however, that exchanges aiready have taken place which justify the State Department in expecting favorable responses to its note. The matter has created a great sensation in diplomatic circles here. It is further learned that the proposition of the United States contemplates a restriction of hostilities and the consequent hardships of war to the smallest possible area. Just what this means is not made clear to the public, but the determination may have the greatest effect upon the struggle between Russia and Japan. It is almost certain that neither will be allowed to invade China proper, meaning by that, that they may not with hostile intent go southward below Shan Hai Kwan, on the border line between Chi Li and Manchuria. It is a grave question whether or not it will apply also to Korea, which is striving desperately to preserve neutrality and prevent invasion, but the general opinion is that it is too late in that case to do more than seek to preserve Korean independence after the war.

No explanation is accorded as to whether Manchuria itself, already the

preserve Korean independence after the war.

No explanation is accorded as to whether Manchuria itself, already the scene of the first battle off Port Arthur, is, being part of China, regarded as being within the scope of the proposition, but here, as in the case of Korea, it is believed that the determination will not be reached before the close of the war. The exchanges reserved to as preliminary to the issue of the note have been going on for several weeks, in anticipation of an outbreak of hostilities. It was at first supposed that the intention was to do no more than to open the door in Manchuria, but it is apparent that there is a deeper purpose, and that from the original thought the proposition has grown into one that will the original thought the propo-has grown into one that will we the territorial integrity of . It is pointed out that some outcome followed the Chino-ese war, so that, after all, the

The attack continued all night, and ships and one first-class Russian cruiser were seen to have been disabled and beached at the entrance of the harbor. The cruiser was badly listed to one side.

This morning, the Russian forts cpened fire on the Japanese fleet, which was about three miles distant. The Japanese vessels returned the fire, bitting several of the Russian ships, but doing little damage. The Russian cruisers then went out, and the Japanese vessels disappeared. They were cruisers then went out, and the Jap-anese vessels disappeared. They were seen later going in the direction of Dalny, apparently undamaged. No torpedo boats were seen and it is probable they left the vicinity after the torpedo attack on Monday night. The Russian fieet outside of the harbor consisted of the battleships Petropalovsk, flagship; Pereswet, sub-flagship; Pobleda, Poltava, Czarevitch, Retonzau and Sebastopol, and the cruisers Novik, Boyaran, Bayaru, Diana, Pallada, Askold and Angara. The Columbia steamed away while the battle was in progress, but later saw the Japanese fleet leave. One Japanese cruiser with torpedo boats is reported north of Chefoo.

The two battleships disabled are the Poltava and the Czarevitch. The disabled armored cruiser Boyarin and grounded battleships block the entrance of the harbor, preventing gunboats from going out and battleships and cruisers from going in and getting coal. Besides this, Japan has the Russian gunboats Variag and Koretz, caught at Chemulpo. They were bound for Viadivostok.

The Japanese fleet was under command of Vice-Admiral Togo, and consisted of four fast cruisers, the Chitose, Shikishima, Yashima and Iwate, which circled the outside, drawing the fire of the Russians. They then joined the main fleet, and all went in to attack the armored cruisers. In the Japanese fleet, which consisted of two divisions, were the Mikasa, flagship; the first-class battleships Asahi, Fuji, Yashima, Hatsuse, and the dispatch beat Tatsuma. The second division of the fleet, under command of Admiral Kamimurs, on the flagship Idzumo, consisted of the armored cruisers Yakuma, Asama and Iwatz.

COLUMBIA'S FLAG STRUCK (BY THE ASSOCIATED PRESS-P.M.) CHEFOO, Feb. 9.—The British teamer Columbia, which arrived here oday from Port Arthur, reports tha today from Port Arthur, reports that she had a narrow escape from injury. Her passengers and crew were very much excited in regard to her dangerous position. While going out of the roads at Port Arthur, the Russian cruiser Novik got between the Columbia and the Japanese fieet. Shells which passed over the Novik struck around the Columbia. Her flag was cut into strips and one shell fell on her deck. The faces of those who were on deck were blackened with powder smoke.

on deck were blackened with powder smoke.

A naval officer who was recently at Port Arthur says the Russians were not prepared for the attack on their ships and had an insufficient amount of steam up. A boat patroled the Straits of Pe Chi Li continuously, but apparently the Japanese torpedo boats were not noticed until after the first torpedo was fired. It is probable that the Japanese fleet was convoying twenty-six troop ships from Sesabo to some port of Korea. The Japanese are reported to be in possession of the southern portion of the peninsula. The Russian war vessels at Vladivostok are the armored cruisers Rurik, Rossia, Gromoboy, and the Bogatyr, a screw corvette built in 1860. Russia has a thousand tons of coal at Port Arthur, but the coal must be taken out to the battleships in the lighters until the battleships disabled by the Japanese are floated.

DEALT CRUSHING BLOW.

ADVANCE ON SEOUL IS REPORTED BEGUN.

ONDON, Feb. 10.- [By Atlantic Cable.] In a dispatch from Tien-Tsin dated Feb. 9, a correspondent of the Daily Mail says it is reported that the Russian cruisers Variag and Korietz hauled down their flags without firing a shot, and that 8000 Japanese immediately landed at Chemulpo, and the march to Seoul commenced.

It was reported from Peking today that the Japanese had disembarked at Chemulpo, notwithstanding the presence there of two Russian warships, and another dispatch from Chefoo said Japan had the Variag and the Korietz caught at Chemulpo.

Japanese troops also landed at all the chief points of Southern and Western Korea. One division of the Japanese guards hold Fusan and Chemulpo, and altogether three divisions, each of 12,000 men, have been mobilized. It appears, the correspondent continues, that the Russian warships at Vladivostok are icebound.

Another correspondent of the Daily Mail telegraphs from Port Arthur, under date of February 9, that the Russian advance has commenced. Gen. Krastalinsky will leave Liao Yang tomorrow for the Yalu River at the head of the Third Brigade of artillery, consisting of twenty-four guns and three regiments of infantry. The Third, Fourth and Fifth Infantry brigades are entrenched along the railroad at a distance of forty miles from Hai Cheng, and three batteries of the Fifth Brigade are at Kienchou.

The greatest activity prevails here, and ammunition is being served out lavishly at an average of 150 cartridges per man. New recruits are being enrolled with feverish haste, drilling being dispensed with in favor of incessant target practice.

A dispatch to the Daily Mail from Tokio, dated February 9, says that a plot is on foot at Seoul to bring 2000 soldiers from Henyang to take the Korean Emperor to the French legation, to which place the Imperial treasury has already been conveyed.

The correspondent of the Daily Mail at Kobe, is a dispatch dated February 9, says that a company of Negoya troops have already been sent to guard the ancient shrines at Isein, in the province of Yamada.

A COMPARISON OF MILITARY STRENGTH IN EAST.

[London Daily Mail, Jan. 14:] The area of the Russian empire, including Manchuris, is \$,020,000 square miles, so that it comes next to the British empire in extent among the great powers. The population is 125,000,000, including Manchuria. The revenue is £207,000,000, and the expenditure, the same.

There are large reserve funds in the treasury, on paper, at all events, to-tailing about £50,000,000, while a sum of £92,000,000 is kept in gold in the state bank. The treasure of the church, which is said to be worth £100,000,000, or even more, could be utilized in any great mational emergency.

BILLS GALORE B. BLACKSTONE CO. TO SEYMOUR

Former Football Manager is in Hot Water.

Accused of Bad Faith by Two

The troubles of J. F. Seymour, Jr., ex-manager of the U.S.C. football team, racer and alleged professional, appear to be piling up. Banished from the Methodist university for Co.

duty devolving on your Athletic Committee whom he represented, to see | VOTING WITH NOT RESPONSIBLE.

WEDNESDAY, FEBRUARY 10, 1904

NOT RESPONSIBLE.

The Athletic Committee of U.S.C. will not hold itself responsible according to Dr. Hoose, vice-president of the university. "Seymour was not a representative of our university when he managed the Stanford-Indian game, and we will not be responsible for the debts he incurred," said Dr. Hoose yesterday. "I do not wish to appear in the light of a persecutor of Mr. Seymour."

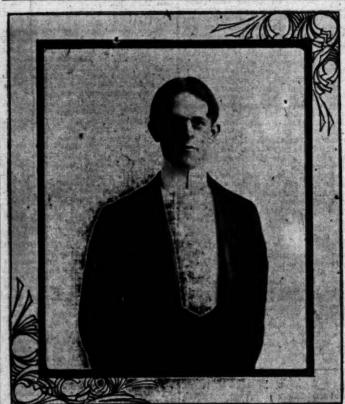

In view of this statement it will be interesting to note what action will follow to secure settlement and who, if anyone, will ultimately pay.

SOME OF THE BILLS.

SOME OF THE BILLS.

Among the bills was one at the Angelus for \$79, charged against Seymour. Yesterday afternoon nothing had been done toward liquidating, but late last evening Manager Holmes of the Angelus stated that the bill had been settled.

for one man, but how there is more hot water for Seymour.

An avalanche of bills—relentless relics of his career with the U.S.C.—Is upon him, and with it come bitter accusations of sharp practice and bad faith from two universities, Stanford and Southern California.

There are large bills and small bills, hotel bills, livery bills and football-bills and all kinds of bills, and the leading question is "who will pay them?" This question is said to worry a good many other persons more than it does Seymour, for he seems to have resorted to the trick of shifting responsibility. The result is tast the University of Southern California is called upon to do much of the settling. The ex-football manager "managed" so that the football team is held liable, rather than he personally, but it is said steps will be taken toward compelling him to straighten out matters.

STANFORD'S SHOT.

STANFORD'S SHOT. David V. Cowden, treasurer of the Athletic Association of Stanford Uni-Athletic Association of Stanford University, writes the president of U.S.C. a letter in which Seymour is "roasted" all along the line for his management of the Stanford-Indian football game re on Thanksgiving Day. Cowden

says:

"Some time ago a Mr. Seymour, who was managing your university atnletics, called on me to arrange a football game with your team. After some discussion, we arrived at the following agreement. He was to give me \$1000 and pay all expenses of our team on the trip to Los Angeles. Neither of us knowing just what our expenses would amount to, we worded our agreement as follows: That we were to have railroad transportation and keep, for three days. As this was roughly put in, we further agreed, that I was to send him an expense list in detail a few days before the game."

"I sent list to same address to which I had sent all former letters to him, but on my arrival in Los Angeles, he claimed never to have received it, and immediately began to which we were justly entitled.

"Seeing that he was trying a little sharp practice, I made him sign an agreement to pay our hotel bills up to and including the time of our departure, the time being set in the papers. The next day he gave me the further assurance that he would pay everything as he was bound to do.

"I had supposed that I was dealing with a gentleman, and the representative of your collegs. I now find that he has not paid hotel bill nor taily ho that was sent to take us to and from the game.

"The hotel management wrote to me, and have now written to our to me, and have now written to our temporal training for the winter Reform School, or for something worse when they get older. It is supposed that the Whittier Reform School, or for something worse when they get older.

SPIKE ON RAIL THROWS OFF, CAR.

DERAILMENT OF OAKLAND SPECIAL AT FREMONT GATE.

On four private cars tendered to the Chamber of Commerce by Mr. Huntington the Oakland people were taken over the various routes of the Los Angeles Railway Company, thus being afforded an opportunity to see nearly every section of the city.

When the cars were returning from East Los Angeles, along the tracks used by the Daly street-University line, the last special was wrecked. The car had crossed the Buena Vista-street bridge and was rounding the curve near Fremont Gate at Elysian Park when it was suddenly derailed. The speed was so great that after leaving the rails the car dashed over the other track, across the street to the gutter

Young thus out in the southwest section of the city are in training for the Whittier Reform School, or for the Whittier Reform School, or for something worse when they get older. They are a terror to other children who happen to be on the street after dark. On Monday night they met two little girls at the corner of Adams street and Vermont avenue, surrounded and terrorized them, stole the purse of the older one, who was going to the store for her mother, and snatched the cap from the head of the other. The girls do not know the names of the boys, and owing to the darkness cannot tell just which individuals committed the outrage.

THE MACHINE.

Problem Discussed Before the Local Supervisors.

ments.

The Standard voting machine of forty keys, such as is required in California, costs \$650. It is stated by the company that this price is fixed and is uniforn for all sections of the State. The Columbia machines were sold to Alameda county for \$625 each after the Supervisors had gone through the motions of advertising for bids.

According to the published circus

Agents of Rival Contrivances

Explain Advantages.

The Secretary of State Versus

Walter F. Parker.

This county is to be the next battleground in the voting machine war which is now fiercely raging. Gentlemen and Boards of Supervisors may cry peace, but there is no peace. Active rivalry and keen competition between the makers of approved machines assures valiant battle for the contract from this county.

Not yet has the smoke entirely cleared away from the scene of the Alameda county engagement and the statement of Supervisors years. The total number of the machines in use in New York is given as 1141 and the number of cities, and villages using them as 371. It is said that 4011 elections have been held in New York on the machines and that, over 500,000 voters have used them in the exercise of their sovereign franchise.

It is further asserted that all of the Standard machines have given complete satisfaction and hundreds of testimonials from prominent people are offered in support of the assertion.

All these points, together with much statistical matter, was laid before the Board of Supervisors yesterday afternoon by Mr. Jordan.

try poace, but there is no peace. Active rivalry and keen competition between the makers of approved machines assures valiant battle for the contract from this county.

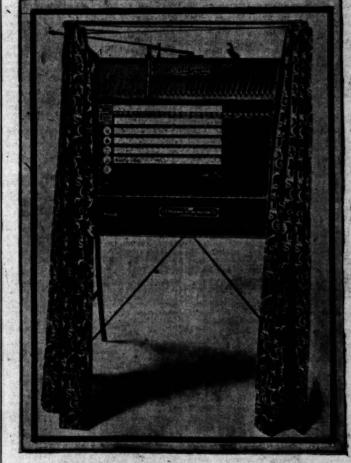

Not yet has the smoke entirely cleared away from the scene of the Alameda county engagement, and the promoters of the rival voting machines come here with the cry of "no quarter." It is a finish fight and the Board of Supervisors say, let the best machine win.

Yesterday afternoon there was an exhibition of the United States standard Voting Machine on the first floor of the Courthouse, and members of the Board of Supervisors, city and county officials, and such of the general public as attended were shown the device in operation. There are a bewildering number of cogs and wheels, trips and catches, safeties and releases in the internal economy of the machine, but the makers assert that it works with deadly precision and is not likely to get out of order.

The process of voting is reasonably simple and the mechanical arrangement is such that it is practically impossible for a voter to spoil his ballot. Whether the illiterate can manipulate the keys in such manner as to cast an intelligent vote is quite another question.

At the last election the voters of the State decided by a majority of about 40,000 votes to permit the use of machines for registering ballots. By an act of the Legislature the California State Voting Machine Commission were to inspect and pass upon the series of all vottig machines. Only mashines approved by this commission were to inspect and pass upon the series of all vottig machines. Only mashines approved by this commission can be purchased by cittes or counties for election purposes.

Thus far the commission has ap- if these forty-eight are out is decided of incorporated cities and towns. If these forty-eight are out is decided of incorporated cities and towns.

THE GENERAL CONFERENCE. SOMETHING ABOUT A GREAT CHURCH AND ITS WORK.

CHURCH AND ITS WORK.

[SPECIALLY CONTRIBUTED TO THE TIMES.]

To a well-informed Methodist his church and its machinery looks sufficiently large and influential to be compared with the government under whose protection it exercises its prerogatives and privileges.

Rev. J. M. Buckley, D.D., is editor of the New York Christian Advocate, the leading publication of the Methodist Episcopal Church. He succeeded the Rev. Dr. Curry, one of the ablest journalists of Methodism, by the election of the General Conference in 1820. He has succeeded himself by the same authority for five subsequent quadreniums, and has thus enjoyed the honored distinction for twenty-four years of ministering to more people than any other minister of the denomination.

Dr. Buckley's leading adjusted.

than any other minister of the denomination.

Dr. Buckley's leading editorial of three columns in a January number of the Advocate is entitled "Two Great Representative Bodies Compared and Contrasted." The great bodies put in comparison in this article are the United States and the Methodist Episcopal Church. Both houses of our national Congress, the Supreme Court of the United States, the President's Cabinet and council, the methods of their selection, their whedom, influence and power, the mighty people they represent, and how these people are perpetusted and increased, and how they are controlled by this complex machinery of state, are all graphically described. Then the writer portrays the great assembly that is to convene in Los Angeles on the first Wednesday of May. He saw a likeness to the national Congress, in the two houses of the General Conference, the ministerial and the lay: the methods of election, what they each represented, the power they exerted, the responsibility attached to them, the scope of their work, and how by them the church is strengthened; how the church is supported, perpetuated and increased; and how all this resembles the government.

MAKE PEACE WITH YOUR STOMACH

You are Certain to Lose if You Attempt the Use of Force and Violence.

You cannot force your stomach to do work that it is unable and unwilling to do. It has been tried time and time again with always the same result. The stomach is a good and faithful servant; but when pushed beyond the limit it rebels. Some stomachs will stand much more abuse than others, but every stomach has its limit; and when that limit is reached, it is a very dangerous and unwise proceeding to attempt to force it into doing further work. The sensible and reasonable course is to employ a substitute to carry on the work of digestion and give the stomach an opportunity to recuperate and regain its lost strength.

Stuart's.Dyspepsia Tablets are the only perfect substitute to take up and

will, and do it in the same time and in the same way. They work independ-ently of surrounding conditions and the fact that the stomach is weak or diseased does not influence them at all in their useful and effective

Ed G. Crawshaw and P. Lynch were found boarder there who did janitor work for his room rent. As soon as he had secured the money Keene disappeared. He has not been seen since. He was in temporary charge of the house, and could not stand the temptation to appropriate to his own use the money which Crawshaw left with him. Crawshaw seems to have a good claim against the owner of the house, but it will be necessary for him to proceed civility against him before he can get his money, and even then the owner may be judgment proof.

THE SECRET OF HEALTH. Rev. B. Fay Mills Delivers an Instruc-

Audience.

Rev. Benjamin Fay Mills spoke twice yesterday in Blanchard Hall and will speak again twice today; at 12:15 his topic will be "The Inner Meaning of the Sermon on the Mount," and at 3:30 he will speak on "The Cry of the Animal Soul." The meetings yesterday were well attended. Mr. Mills's subject in the afternoon was, "The Source and Secret of Health."

He said, in part; "Man consists, according to our western philosophers, of body, mind and soul. The mind is the connecting link between the body and the soul which is the mind of the mind; and the personal will is only a fragment or simple portion of the infinite soul and spirit. The source and secret of health is not in the body. Bodilly sensation' does not exist, as is proved by death and the use of anesthetics. Bodily strength is not in the body. When you lift a weight, you call a sort of force to you whose strength is thrown upon your muscles and overcome by the resistance of the weight. Muscle without mind and the application of force never lifted anything.

"The source and secret of health is

thing.

"The source and secret of health is not in the mind, although it flows, through it. This is nearer the truth and is sometimes mistaken for it as a man might mistake the wire for the alectric correspondent.

lo Time to Fool About Foods

The great majority of otherwise thoughtful people impatiently exclaim: "I have no time to fool about food; I am too busy." If you have not the time to live rationally—well, you are not living. Hurrying over meals, neglecting meals, eating indigestible food, ignoring what tasks you ask your poor, helpless stomach to undertake—this is laying broad and deep the foundation of serious ills. Maybe it has never been brought home to you that there are certain foods like

that are conducive to health. Try it and note the immense gains of the experiment.

YOU ARE GOING EAST-

Perhaps not to-morrow or next week—but some day you are going east.

Naturally you want to go the way that is safe, comfortable, interesting, economical—and that's the Burlington way.

The Burlington Overland Excursions leave California on certain days of every

week for all the principal eastern cities reached via St. Louis and Chicago. The excursions travel in Pullman tourist sleeping cars, thro' Salt Lake City and Denver, passing the grand scenery of the Rocky Mountains by daylight. The cost of a double berth, comfortable for two persons, is \$6.50 to St. Louis and \$7.00 to Chicago. An experienced special conductor is in charge of each excursion.

Let me tell you more about this good way of going east. Just send me the coupon, properly filled out.

Local Speakers Return Divers Complimentary Greetings.

The Evening's Reception at Chamber of Commerce.

Last night for the first time the ew quarters of the Chamber of Com-secontion. While the formal opening till take piace February 12, the com-dimensary visit of the Oaklanders the arrived yesterday morning caused the doors to be thrown open as a spe-lal honor to them.

RULE OPENE.

Perd K. Ruis, the retiring president of the chamber, presided, and in his opening remarks briefly reviewed some of the strong points of this community. He said:

"It is my very great pleasure, on whalf of the Los Angeles Chamber of Commerce, to welcome here this evening our neighbors and friends from the beautiful and progressive city of Oakland. I can assure you that we of Routhern California, and particularly of Los Angeles, appreciate the feeling of brotherly love that prompted you to ravel five hundred miles to become bester acquainted with the southland.

"I am glad we came here. I shall go back to Oskiand with new enthusiasm and new energy, and when you return this visit, as you certainly will do in the near future, we shall all be persueded that our exchange of opinions has not been in vain, but has worked to our mutual benefit."

Another Oskiander who made some happy "hits" with the audience was Theodore Gier, president of the Merchants" Exchange of that city and chairman of the Alameda County Bt. Louis World's Fair Committee.

"If we had half the enthusiasm in our city that you have here," remarked Mr. Gier, with evident conviction, "Oakland would already have half a million inhabitants."

Hon. Fred Smith closed the programme with remarks on behalf of the South, and the visitors dispersed to mingle with the members of the Reception Committee and other local citiens in the exhibit hall, and to partake of punch and light refreshments.

Long Beach Purity Workers Opposes Public Dances.

was literally "smoked out" of his pulpit last night. Having been through the Civil War in the cavalry service, the doctor is a fighter, and he didn't give up without a fight.

But it was no use: the plugged-up chimney carried the day and the prescher, followed by his entire staff and company of troopers, was compelled to desert the works.

An effort will be made tonight to make the service doubly interesting. Francis Murphy, the hero of gospet temperance, will be the principal speaker, and he will make one of his strong appeals to people to get aboard the gospel boat. Dr. Pitner, of course, will be present and address the meeting also.

CAPT. TRUELOVE'S SUCCESSOR.

Maj. Connett of the Salvation Army Purity workers of Long Beach fear, the coming of the scarlet woman.

In the public dances conducted triweckly at the seaside town they think they see the means whereby she may ply her trade of sin.

Recent official action in Los Angeles has driven many unrepentant women of the half-world from their accustomed haunts. Thinking that large numbers of these women may come to Long Beach, the seaside purity element is opposing the dances.

Champions of the public dances say the peace officers at the seashore are amply able to cope with the situation.

These differences of opinion and the resultant arguments have made the fight single.

Immbers of these women may come to Long Beach, the seaside purity element is opposing the dances.

Champions of the public dances say the peace officers at the seashore are samply able to cope with the situation. These differences of opinion and the resultant arguments have made the fight size.

On one side are told accounts of gross immoralities traceable to the public dances. On the other hand are furnished assurances that the dances are well managed and practically free from objectionable features.

The money power is one of the greatest props in the situation. If the band concerts continue somebody mist pay the trumpeters.

Between \$10,000 and \$15,000 per year is wanted to keep the music going. If the swaits who pilot maids through the two-steps don't pay the charge then somebody sies must if the trombone and clarinet men get their remuneratios.

THINKS DANCES WRONG.

That the maintenance of the public dances will encourage the flocking of the women from the redight district of Los Angeles to the seaside town is the opinion of Capt. Harry Palmer of Long Beach. Capt. Palmer is strenucusly opposing giving permission for public dancing in the city's pavilion.

"Fersonally I am opposed to dancing," he said yesterday. "If dancing were carried on in a private hall without violation of law I would not take a Carrie Nation ax and attempt to biage a way through the place. But what I object to is permitting dancing in a public place like the Pavilion, and on property belonging to the city, where every citisen has a right to go.

The position of some of us who are called long hairs' has been misrepresented. I have suggested that we ought to have good band service for, say, 316,000 per year, That would allow eleven men at \$50 per month, a leader at \$1000 per year, That would allow eleven men at \$50 per month, a leader at \$1000 per year, and a special police officer at \$1000 per year, and a special police officer at \$1000 per year, it dancing were to be allowed for, say, 390 hights in a year, the revenue from it ought to average over \$10 per night, which would make up the \$10,000 required for the running of the band.

"If that were done the money contributed by the city for band service under the present arrangement could be used for street improvements instead are allowed from the provements instead from the provements in the provement is observed.

[BY THE ASSOCIATED PRESS—A.M.]

IBY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 2.—A great lee
gorge has formed in the Delaware
River, ten miles below Hancock, N. Y.
The high temperature of Sunday caused
the ice to move down as far as Lordsville. There it stopped and soon formed
the greatest gorge ever known in the
upper Delaware. The ice piled twentyfive feet high, the water being forced
over the flats, where it is cutting deeply
and making a new channel. The gorge
extends for several miles up both the
east and west branches from Hancock.
Great damage is being done to railroad and west branches from Hancock.
Great damage is being done to railroad and highway bridges are threatened: People living near the river were
forced to remove to higher ground.

SNOW IN THE ROCKIES.

NEWARK (N. J.) Feb. 2.—The United States Shipbuilding Company's case came up before Judge Kirkpatrick today, when orders which are considered practically to settle the controversy were drawn up, agreed on, embodied in a decree and signed by the court. They consist of four motions made by Untermyer in behalf of compaints. They are: That the United States Shipbuilding, Company be declared insolvent; that a permanent receiver be appointed; that Charles M. Schwab be made a party defendant; and that the case be tried in open court.

Counsel for the temporary receiver announced that he would agree to the consolidation of the suits, there was no objection by the shibbuilding company's lawyers, and a motion to that effect, previously made, was thereby disposed of.

A PLEASANT SURPRISE In Store for Those Who Doubt.

In Store for Those Who Doubt.

When you read that a sufferer of many years' standing has been completely restored to health by using Smith's Cure-all, you are inclined to doubt the statement, and, in fact, have no belief in it whatever. The reason for this is that so much is claimed for the Cure-all it is impossible for anyone to believe it; if the advertiser confined his claims to the curing of one disease, as do the proprietors of Pyramid Pile Cure, readers would have much more faith in published testimonials. Those familiar with this great remedy know that testimonials as to its merit may be relied upon implicitly, also that the cures brought about by its use are little short of marvelous. The genuineness of the testimonial here given is youched for and is but one of thousands received:

PERNANDO, Feb. 2.—It was a happy party that gathered at "Olivewold." the home of Rev. Dr. R. 8. Maclay, to commemorate his eightieth birthday. The home was beautifully decorated, the reception hall with olive and ivy, the parlors with Japaneses bamboo.

Dr. Maclay was the pioneer in missionary work for the Methodist church in China, establishing a mission in one of the ports more than half a century ago. Later, having returned to the United States, he was sent out to Japan and established the first mission of his church in that country. "Olivewold" is filled with rare and beautiful pieces of furniture and curios gathered in the Orient in those far away daya. Dr. Maclay is the only surviving member, of his generation, of the Miclay family, and is a direct descendant of the claim of Seotland. Purple and yellow, the colors of the Maclay tarian, were worn by all the relatives present.

A number of addresses were made, Rev. A. Hardle, pastor of the Methodist Episcopai. Church, extending, a welcome, and H. C. Hubbard speaking on behalf of the family. Dr. J. February Trade Sales.

An innovation by the great Hamburger store wherein we shall stempt to put before the public of Los Angeles and Southern California some of the very finest lines of merchandise at excepnally low prices. The credit is to be given to our New York buying organization in collaboration with our local buyers who are now in the Eastern markets. The recent and continued inmt weather has interfered materially with the jobbing and ale interests of the East and manufacturers must dispose of their goods more rapidly than the demand has been of late in ir home markets; so we have been fortunate in securing some of the very finest merchandise that we can price to you for the made articles little more than the cost of material and makng; while in the yardage goods the prices range about the cost of riel alone. As thrifty people you should anticipate your ints for certain it is that not again during the year will you save such exceptional opportunities to save such generous amounts on goods for which you find every day uses. Therefore, read our ads carefully and take advantage of them for most of them are featured as one day sales and owing to their exceptional es we can not fill mail or telephone orders where specially
